ANNUAL AIR EMISSIONS INVENTORY QUESTIONNAIRE

Soil Vapor Extraction Units (SVEU)

The 2013 SVEU Annual Emissions Inventory Questionnaire includes 4 forms that are required to be completed & submitted to the Air Quality Division. Instructions for each form are included below. Upon completion, submit all forms along with the signature by the Responsible Official of the facility within 90 days of receipt of the letter from the Department to the address below.

FORM 1: Facility General Information

Complete all information as requested.

FORM 2: Equipment, Stack, & Location Data

- Table 1: List all information for the SVEU operating at the facility. Include the Authorization To Operate (ATO) number for all permitted equipment. Indicate, if not available.
- Table 2: List details of each stack on the equipment.
- Table 3: If the portable equipment was moved from one location to another, list the dates, the cities & counties, the latitude & longitude or address/driving directions for the portable equipment that was operated during the year 2013.

FORM 3: Emissions Calculations

- SVEU Emissions: Based from your Lab test results, input hours of operation (for the time period of test) , effluent concentration (ppm by volume), and flow rate (ft³/min). A sample of the calculations are provided on page 7.
- Burning Fuel Emissions: Based on the type of fuel used (Natural Gas or Liquid Propane), choose the appropriate table to input the equipment heat input rate and hours operated in the year 2013. If you used electrical energy to operate your equipment, then you can skip this part of calculations.
Once data is inputted, the formulas are set to complete the calculations. Therefore, do not move or change any of the fields or columns. If moved it will result incorrect calculations.

FORM 4: Summary & Certification

A summarization of all the emissions by each pollutant will be listed within this form. All reports submitted to the Department should be certified true and accurate by the Responsible Official of the facility. This person is the owner or operator of the facility. **If there is a change of the Responsible Official of the facility, please notify the Department with an additional letter stating the change.**

If you have any question or have difficulty completing this form, please contact Michael Burton at burton.michael@azdeq.gov or (602) 771-4562. Remember to make photocopies of the completed questionnaire prior to mailing for your records/reference. Please mail the emission inventory questionnaire form to the following address:

Example of annual emission calculations in tons/year:

$$[\text{Maximum Conc. (ug/L)}] \times [\text{Mass/Volume Conversion Number (0.00000006243)}] \times [\text{Flow Rate (ft}^3/\text{min)}] \times [\text{minute per hour (60)}] \times [\text{hours of operation (hours/year)}]$$

$$[(2000) \text{ pounds per ton}]$$

$$\text{Maximum Concentration} = [\text{Effluent Concentration (ppm by vol)}] \times [\text{molecular weight}/24.04]$$

*where the "molecular weight/24.04" is a conversion factor for ppm by volume to milligrams (found in AP-42 , Appendix A, "Conversion Factors for Common Air Pollution Measurements," page A-27

Emissions for Burning Fuel
